Letter of Consent

I hereby express my great interest in continued service in Journal of Anaplastology as an Editor.

I further give my consent to disclose by the Journal my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and technology communities.

I strongly recommend this journal to be indexed in PubMed Central. Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.

July 15, 2013

To Whom It May Concern:

I strongly recommend that the Journal of Community Medicine & Health Education be indexed in PubMed Central.

In my experience with the Journal staff, I have found them to be professional and hard working. The editorial board provided reviewers for the manuscript that I submitted that were helpful and supportive. Overall in my experience those associated with the Journal of Community Medicine & Health Education have developed a professional product that disseminates health research in an open and equitable way. PubMed Central indexing would expand the reach and impact of the research in the Journal and would continue to increase the quality of the submissions. Overall I feel that this would be a benefit for the research community at large.

Sincerely,

Martine Hackett, Ph.D., MPH

Dear Sir,

Please allow to express my interest and intent to continue my service as an Editor of the *Brain Disorders & Therapy*. I further give my consent for the Journal to disclose my affiliation and contact information.

I do not have any conflicts of interest which would interfere with this important service for the scientific, medical, and technological communities.

I strongly recommend that the *Brain Disorders & Therapy* be indexed in PubMed Central. This unique Open Access journal has become an excellent source of information related to Brain disorders and treatment, with many subscribers around the world. The journal staff, authors, and editorial board members have worked very hard to establish this journal as a publication with a high professional standing and thereby I recommend this journal to be indexed in PubMed.

Best Regards,

A handwritten signature in cursive script that reads 'Michael F. Waters'.

Re: Indexing of the Journal of Clinical & Cellular Immunology in PubMed Central

Dear National Library of Medicine:

I am writing to strongly recommend that the Journal of Clinical & Cellular Immunology be indexed in PubMed Central. The Journal staff and editorial board have worked very hard for the journal to establish its high professional standing. As we continue to promote excellence in our primary research publications, special issues, and review articles, recognition through PubMed Central will support our authors, encourage their continued participation, and help to validate their contributions within the academic community.

Sincerely,

A handwritten signature in cursive script that reads "Nancy Louis, MD".

To whom it may concern,

I am a member of the editorial Board of the *Journal of Asthma and Therapy*. Upon assuming this role it was my strong recommendation to the editors of the journal that the *Journal of Asthma and Therapy* be indexed in PubMed Central, and I continue to recommend this activity. The mission of the journal staff and editorial board members is to publish a journal that will be useful to the healthcare community. Their high standards for peer review have made the journal a dependable source of information for clinicians and researchers.

Sincerely,

Subject: Recommend the Journal of Autacoids to be indexed in PubMed Central

Dear Committee:

I strongly recommend the Journal of Autacoids to be indexed in PubMed Central. The Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.

The journal constantly published high quality research / review articles and the quality surpassed the publications in comparative journals with high impact factor. I strongly endorse this journal. Please let me know with questions.

Sincerely,
